NOT ENOUGH CHILDREN

ever receive the proper balance of food to sufficiently nourish both body and brain during the growing period when nature's demands are greater than in mature life. This is shown in so many pale faces, lean bodies, frequent colds, and lack of ambition. For all such children we say with unmitigated earnestness: They need Scott's Emulsion, and need it now. It possesses in concentrated form the very food elements to enrich their blood. It changes weakness to strength; it makes them sturdy and strong. No alcohol.

SALVIA SUMMARIZINGS.

Advocates of fall plowing for sod corn seem to have the facts in their favor this spring—at least those who had a sod composed of weeds, briars and a sprinkling of grass. Where such "sods" were ploughed this spring the corn was practically a failure in Licking Creek, Taylor, and Belfast townships. Cut worms, wire worms, ants and other insects destroyed whole fields of young corn. On the other hand, fields that were ploughed late last fall, after freezing had set in show little damage from the foregoing causes. These observations are surely worthy of earnest consideration.

Wipe the BLUE out of MONDAY

Monday is a hard day. But not so hard that it should give you the blues. Neither should the end of the day find you nervous, done out, fit for nothing but bed.

It's not necessary—not if you'll replace your range with a **New Perfection Oil Cook Stove**. For it's the range that's responsible for the fuss and the fume and for the terrible heat of the kitchen.

With a coal range there's no way out of keeping a roaring fire going the whole day long and just to heat a few boilers of water. But with a **Perfection** wash day loses its terrors. The flame is kept going only as long as it is in actual use, your kitchen can't become unduly warm, and meals can be prepared just as usual.

Ask your dealer to explain the conveniences of a **Perfection**. Then he will tell you how little kerosene it uses and how cheap kerosene is.

Don't think all kerosenes are the same. They're not. No more than all sugars are identical. Of course, you know that cane sugar is better than beet sugar and you buy accordingly.

But what, perhaps, you don't realize is that **Atlantic Rayolight Oil** differs from other kerosenes in that it burns without smoke or smell, without charring wicks, but with an intense heat. It never varies. Each gallon of **Rayolight** is precisely the same. And don't forget that the use of **Rayolight** lengthens the life of any oil-burning device.

Ask for **Atlantic Rayolight Oil** by name—at all dealers who display this sign:
